

I am against the NAB petition to control XM Instant Traffic and Weather. I should be able to listen to local traffic and weather reports on XM if I want to. I pay for the right to listen to the variety and quatlity of programming the XM provides. The NAB should not be able to restrict my ability to listen to what I have a right and what I have paid to listen to.

Please reject NAB's petition 04-160.

Chet Austin
